REPORT OF THE BOARD OF SELECTMEN

To the Citizens of Milford:

Milford continued its industrial revitalization into fiscal year 1983 with the agreement of several major firms to locate in the 300 acre Granite Park, including Photofabrication Engineering Inc., Boston Digital, Atamian Subaru, and Coady-Olds/Toyota/GMC, Inc. The Board of Selectmen also looks forward to the development of two major hotels in the Route 495 area.

The Selectmen are also pleased to report that during fiscal year 1983, efforts to recycle several surplus municipal buildings were very successful. The Purchase Street School and portables, vacant since 1980, were leased to the Mother Hubbard Pre-School Center. The Evergreen Center, which formerly occupied the first floor of the old Medical Home, took over the entire facility to meet their growing needs as a residential treatment center for mentally and physically handicapped children. The Evergreen Center also initiated an agreement with the Selectmen to lease the Memorial School portables on a short-term basis for classroom use.

The Selectmen are particularly gratified that the Plains School property will be reused as the site of new housing for the elderly. The Plains site was officially turned over to the Milford Housing Authority by Town Meeting in May of 1982 to allow the construction of 65 units of elderly housing scheduled for completion in 1984. The Plains portables were turned over to the Evergreen Center for eventual reuse as classrooms on the old Medical Home property as part of their overall lease agreement with the Town.

Although reuse of surplus buildings was a top priority for fiscal year 1983, rehabilitation of town buildings currently in use was also on the Selectmen's agenda. With the support of the Finance Committee, the Board of Selectmen sponsored a successful article at the October 12, 1982 Special Town Meeting to appropriate funds to begin rehabilitating the exterior of Town Hall, one of Milford's finest landmarks and historical treasures. The Selectmen hope that Town

Meeting members will also look favorably upon future proposals to be submitted by the Board of Selectmen to continue the restoration of Town Hall.

The year ended with the retirement of one of Milford's most dedicated town officials. Police Chief John J. McGrath retired on June 30, 1983 after forty years of service on the force, ten of which he served as its chief. Sergeant Donald F. Small was named as the Acting Chief until Chief McGrath's successor is chosen from candidates passing the Civil Service exam scheduled in February, 1984.

The Board of Selectmen and Judith T. Sparrow, the Executive Secretary, would like to once again thank all the department heads and employees of the Town of Milford for their dedicated and unselfish service which provide the townspeople of Milford the best possible services with the dollars allocated in the budget.

Respectfully submitted,
Dino B. DeBartolomeis, Chairman
Harris M. Tredeau
John A. Beccia, Jr.

REPORT OF THE INSPECTOR OF ANIMALS

To the Honorable Board of Selectmen and Citizens of Milford:

All horses and cattle in the Town of Milford were inspected and found to be disease free.

Sixty-two dog bites were investigated and the dogs quarantined. None were found to be diseased.

Respectfully submitted
Leon J. Mael
Inspector of Animals

REPORT OF THE BOARD OF ASSESSORS

To the Honorable Board of Selectmen and Citizens of Milford:

This past year the Town of Milford went under a reassessment of all property values required by the State Department of Revenue.

Patten Appraisal Associates of So. Portland, Maine was retained to provide this service because of the company's familiarity with the community as a result of its 1979 revaluation program.

Basically the company studied real estate sales for the past three years to find out what Milford property owners were paying for their homes.

After the sales analysis, the company developed trend factors for different neighborhoods throughout Milford.

By applying these multiples against the property owners assessments, all values will more closely represent prices paid for homes in the community.

Patten Appraisal Associates was also retained to study commercial, industrial and apartment property assessments in order to update all classes of taxable properties.

Business personal property values were also updated by Mr. Raymond Gannon, CMA, Personal Property Appraiser from Saco, Maine, who also did the Personal Property values in 1979.

In my opinion, the Patten Appraisal Associates and Mr. Gannon did an excellent job in updating the property values for the Town of Milford.

Beginning with Fiscal 1983 the State Department of Revenue requires all towns and cities to update their values every three years.

The Board of Assessors extends its appreciation to Town Counsel, Gerald Moody, Executive Secretary, Judith Sparrow, Town Accountant, Michael Diorio, Tax Collector, Robert Andreano and all other department personnel, and especially to our office staff for all the help and guidance given us during the past year.

Respectfully submitted,
Christopher C. Morcone, Chairman
Joseph E. Capuzziello, Clerk
Joseph F. Niro

REPORT OF THE TOWN CLERK

To the Honorable Board of Selectmen and Citizens of Milford:

Herewith, I submit for inclusion in this year's Town Report a record of all elections and town meetings held in fiscal years 1982 and 1983. (See pages 23 through 88) Fiscal 1983 was, in particular, a very busy year, encompassing, in addition to our routine office work, annual and special town meetings and three elections. The office was also saddened by the sudden death of Celia Marengi, a capable and efficient Departmental Clerk for the past five years.

At this time I would like to thank the members of your Board and other Town Departments for their help and cooperation during the year. Public acknowledgement and thanks also to Assistant Town Clerk Anna M. Beyer and part-time Clerk Candace Ahearn for their able assistance.

Respectfully submitted,
Katherine E. Cullinan
Town Clerk

REPORT OF THE CONSERVATION COMMISSION

To the Honorable Board of Selectmen and Citizens of Milford:

From May 1982 until July of 1983, the Conservation Commission wrote 17 Certificates of Compliance, 4 Extensions, 10 Order of Conditions and 2 Cease and Desist.

It should be noted that before signing any of the above legal papers, the Commission has to do at least two on-site inspections. Since we are a body that is responsible for policing our orders, it means that many inspections are made during the development of a project. We also inspect complaints and possible violations. Without a town engineer, the work load for the Commission has been very heavy. Robert DePaolo, Louis Espanet

and Jane Pollock have given many hours in this pursuit.

During the past year we have been involved in the largest and most complex industrial park developed in a wetland area in the State of Massachusetts. To write this Order with objectivity for the developer, incoming industries and the safety of the future of the community, the Commission hired the foremost authority on ecological law in the State.

We have worked closely and creatively with Mr. Fafard, and we think it is evident that this will be the most unique industrial park in the State. We have been told this is the first Order in which water in quarries is being used to reduce energy costs, as well as serving other purposes beneficial to manufacturers.

Another Milford land mark proving industry and conservation can work together.

We are proceeding with Phase II on Milford Pond. The area has been drained. We now are certain that we have between 20 and 30 feet of peat in the Pond. Asst. Town Planner Martin Goldstein has obtained a grant for completing Phase II, which will clearly detail what will be done to the pond, where dredging will occur, grading of banks, handling of landfill site, etc. The specifications are being written by the state and will be forthcoming soon.

The seedling sale program was reactivated under the direction of Ken Nigro. Within a half hour, 1000 seedlings were sold. We were sorry to have to turn away so many people.

The fishing derby held at Louisa Lake, conducted by Louis Espanet was a success. Many gifts were given by businessmen as well as two fishings rods donated by Mr. Espanet.

A study of Godfrey Brook was spearheaded by the Commission and a group of homeowners bordering the brook. The study was conducted by Dunn Engineering. Vice President John Parmentier gave his report at a meeting with the selectmen in August. We have reached the moment of truth. It will now be up to the community to act.

As of April 1983, new Rules and Regulations have been adopted in administering the Wetlands Protection Act. Verna Cahill went to several seminars to acquaint herself with the changes, after which the Commission held special sessions to discuss and familiarize themselves with the changes. While the wording of the law is not changed, the interpretations are more clearly defined, which is meant to make it easier for both developers and the Commission to understand and to govern.

It has been a year of remarkable growth and change.

Respectfully submitted,
Edward W. Pough
Nello Allegrezza
Verna Cahill
Robert DePaolo
Louis Espanet
Kenneth Nigro
Jane Pollock

REPORT OF THE COUNCIL-ON-AGING

To the Honorable Board of Selectmen and Citizens of Milford:

The Council met monthly during the entire year, meeting on the second Tuesday of each month, at 10 a.m. at the Senior Center, on Winter St., continuing in an advisory and supportive capacity to our Activity Coordinator to the Elderly, Owen Keenan.

I am pleased to report that the Milford Council on Aging, through the combined efforts of all its members, have provided Arts and Crafts classes, exercise classes, pokeno games, bingo parties, bridge, activity days for men, blood pressure clinics, diabetes, and glaucoma clinics, as well as other health programs.

We are appreciative of the "Well Care Clinics" sponsored by the VNA, and also the yearly clinic sponsored by the Milford Board of Health and VNA.

The Council also welcomed Marge Hicks, who was added to the staff, as Receptionist under the Green Thumb Program.

Our daily Nutrition Program has expanded, as Hopedale has also merged with the Milford Nutrition Program, sponsored by the Tri Valley Elder Service, and the Milford Council on Aging.

Other programs sponsored by the Council are monthly day trips, over-night trips, shopping bus, bowling, para-legal service and dental clinic; also the Vial of Life Program, which is being offered to all Milford Seniors, as well as handicapped and those living alone. A Mid Summer Fest was also held, along with our annual Christmas Party for the Elders.

The Highlight of the year is our monthly Newsletter (The Elder Milfordian News), edited by Emma Barry. Its 1500 copies are distributed at the Center and also placed in various banks, churches and businesses to Town.

The year was also filled with big plans as we could see the new center taking shape. Renovations are near completion, and a dedication and open house will be held in the near future.

Various members also attend many meetings, including: Blackstone Valley Elder Consortium, Central Massachusetts Association of Councils on Aging (CMACA), Region II Area Agency on Aging, Elderly Home Care Advisory Council meeting, of which Clifton Tyler is Chairman. Members have also attended workshops and classes of various kinds.

The Van has been responsible for increased shopping, center and nutrition transportation, and medical transportation. We are waiting for a new 12 to 15 passenger van funded by a Federal grant. In the meantime, much thanks to Alan Alves and the Ruggerio Ambulance Inc. for donating their services to the Town of Milford when it was necessary to retire the old van.

To our Council members and former members, many thanks for your devotion and concern, and your contribution of time and talents. We look forward toward 1984 as a year of great fulfillment for the Senior Citizens of Milford. We sincerely hope that the new Center will add to your enjoyment, comfort and good health.

The Council expresses thanks to the Honorable Board of Selectmen, Executive Secretary, Judith Sparrow and other town departments for their cooperation during the fiscal year ending June 30, 1983. Also thanks to Albert Inglesi for his excellent custodial service.

Respectfully submitted,
Adam F. Diorio, Chairman
Clifton Tyler
Catherine E. Curtin
Emma Barry

REPORT OF THE EXECUTIVE SECRETARY

To the Honorable Board of Selectmen and
Citizens of Milford:

During fiscal year 1983 several ongoing projects continued to progress, including the renovation of the former School Administration building on Winter Street for use as a Senior Center. Students from the Blackstone Valley Vocational School's Structural Carpentry Program provided most of the labor for the project, with the funds appropriated by the October 12, 1982 Town Meeting allocated for materials and special items, such as repair of the roof and insulation. The Council-On-Aging looks forward to a target date of November 1983 for a grand opening, including the relocation of the elderly nutrition program to the center.

On behalf of the Board of Selectmen I would also like to take the opportunity to welcome the new Confidential Secretary to the Board, Ms. Jean M. DeTore who started in April of 1983.

Once again I would like to extend my appreciation to all department heads and employees for their cooperation over the past year.

Respectfully submitted,
Judith T. Sparrow
Executive Secretary

REPORT OF THE FIRE DEPARTMENT

To the Honorable Board of Selectmen and
Citizens of Milford:

This Department is not up to manpower requirements of the New England Rating Association. We should have one firefighter on duty for each 2000 population. We should have another Lieutenant to train and perform inspections. This Department has, by Chapter 148 Sec. 26 F, new duties that require sending an officer out for inspection. During fire emergencies, fire apparatus is responding without an officer. This is especially severe during the first few minutes of any fire situation.

This Department will again propose a new Central Fire Station and a Satellite Station closer to the Industrial Parks in Town.

I would like to thank the Board of Selectmen as well as other Department Heads for their cooperation extended to this Department during the past year.

Respectfully submitted,
John E. DePaolo
Fire Chief

REPORT OF THE BOARD OF HEALTH

To the Honorable Board of Selectmen and
Citizens of Milford:

The Board of Health would like to take this opportunity to present a brief summary of their many activities in the public health field to the citizens of Milford. During fiscal year 1983, the Board of Health activities in the environmental health area continued to be the highest priority item in Board of Health programs. During the month of June 1983 the Board unanimously passed hazardous materials regulations to meet the operating needs of the Town of Milford. The purpose of its regulations is to protect, preserve and maintain the existing and potential ground water supply, ground water recharge areas and surface waters within the town from contamination with hazardous materials.

Also during this year the position of part-time Health Inspector was approved for the coming year. This part-time Inspector will work in the areas of food protection, housing inspections, health nuisance investigations and other duties delegated by the Health Board. The Board has long recognized the critical need for this added help and is pleased that this position will provide the necessary continuity to our various programs.

FOOD PROTECTION

Our Health Officer, Paul A. Mazzuchelli, inspects almost 100 food service establishments which include restaurants, retail food stores, catering establishments, bakeries, and institutional facilities twice each year. Each restaurant is graded according to inspection reports and published in the newspaper for public review.

SOLID WASTE MANAGEMENT

The Board of Health is the administrative agency for solid waste collection and disposal services for the Town of Milford. The Reddish Disposal Service, Inc. of Needham, Massachusetts is the contractor for collecting solid waste for the Town through 1985. This service is available to residents living in dwellings containing five apartments or less and is provided on a weekly basis. Each resident is entitled to dispose of no more than eight bundles, bags, etc. per week.

The Board also operates the transfer facility located on Cedar Street. This facility is available to Milford residents for the disposal of building waste materials such as plaster, wood, shingles and like items that are in the amount that these items will exceed the eight item limit for residential collection. Future plans in this area will include more progress for the closing of the former sanitary landfill.

HOUSING INSPECTIONS

The Board also provides housing inspections for single and multiple family dwellings throughout the town. These inspections are performed as a result of complaints from tenants or landlords of these dwellings regarding sub-standard living conditions. The Board of Health insures that these dwellings are up to code in order to meet the minimum standards of fitness for human habitation.

SUB-SURFACE SEWAGE SYSTEMS

The Board has a well established policy for the planning, design and installation of sub-surface sewage systems for both residential and commercial properties. Sites for proposed new home construction, which do not have available to them a municipal sewage system, are carefully examined by the Board of Health Engineers, Mr. Joseph Champagne and Mr. John Bertorelli, as to their suitability for the maintenance of a sub-surface sewage disposal system.

These examinations include the study of the soil structure as well as the determinations of the groundwater in the area.

MOSQUITO CONTROL PROGRAM

The Board of Health again this past year provided a Mosquito Control Program of their own as well as being assisted by the Central

Massachusetts Mosquito Control Project.

The Board has sprayed every section of town at least two times during the Spring and Summer season. This program has been quite successful in the controlling of adult mosquitoes especially during sporadic Eastern Equine Encephalitis outbreaks in nearby communities. It is under the supervision of Paul A. Mazzuchelli, Health Officer.

WATER TESTING

Health Officer, Paul A. Mazzuchelli, continues to perform bacteria tests on drinking and surface water. This is available to private citizens at a minimal fee.

CHOKESAVING SEMINAR

The Board of Health sponsored a choke-saving clinic conducted by Lt. John Hennessy of the Milford Fire Department. The clinic was attended by close to 100 people who are employed in local food service establishments.

ASBESTOS

This year the Board of Health conducted inspections for dangerous friable asbestos materials in all municipal buildings and assisted the School Department in this endeavor. Recommendations and ideas were made by this office in order to help in the correction of these dangerous situations.

NURSING SERVICES

The Board continues to contract with the Visiting Nurse Association to provide a total nursing service program. The contract provides therapeutic home health services to those patients in the Town insured by the Medicare, Medicaid and private health insurance programs. The Agency also provides the following:

- A. Therapeutic services to individuals who elect to pay privately on a sliding fee scale.
- B. A limited number of free nursing visits.
- C. A clinic program, such as Well Child Clinics, Elderly Clinics, Influenza Clinics, Free Pre-School Immunizations Clinics and a Parochial School Nursing Program.

DENTAL CARE

The Board provides a dental care program to the children for Kindergarten through Grade Six in both public and parochial schools.

Mrs. Karen Compos, Hygienist, screens the children from problems and conducts a Fluoride Rinse Program which has become very successful this past year.

GAS INSPECTOR

The Gas Inspector is Mr. Philip Morin and his assistant is Mr. Joseph Pighetti, who work under the Board of Health. His duties include inspecting of gas work that is performed by licensed plumbers in the Town of Milford.

RABIES CLINIC

The Board sponsored a rabies clinic conducted by Dr. Richard Heller DVM in April. The Board urges residents to take advantage of this worthwhile service.

In the future the Board promises to continue these important services and looks forward to instituting additional services for the citizens of Milford.

We would like to thank the following employees for their outstanding contributions in making possible the many successful activities that were conducted by the Health Board during the past year.

Paul A. Mazzuchelli,
Health Officer and Burial Agent
Avis Power,
Clerk-Typist and Burial Agent

REPORT OF THE HIGHWAY DEPARTMENT

To the Honorable Board of Selectmen and Citizens of Milford:

I wish to thank the Honorable Board of Selectmen and all other town departments for their cooperation and good will during the past year.

A special thanks to all the members of my department for their cooperation and help in making the 1983 fiscal year a successful one.

Our general maintenance work continued as usual. We patched, cleaned basins, hot topped various sections of roadways, swept, repaired equipment, cut brush, cleaned debris from roadsides and brooks, repaired walls at various brook locations, replaced street and square signs, erected traffic signs, painted crosswalks and traffic lines, assisted all Town Departments whenever necessary and we assisted our Tree Warden, Joseph Graziano, with maintenance of all the school grounds, playing fields, chipping brush and the removal of dead trees and stumps.

We resurfaced the following streets with MC800 asphalt and sand cover:

Hayward St. from Mt. Pleasant St. to East St.

Vine Street
Nolan Avenue
Balian Way
Madden Avenue
Carven Road
John Street
Cunniff Avenue

We cut out worn and deteriorated sections of asphalt and replaced with Bituminous Type I Concrete the following:

Princeton Drive
Trinity Drive
Fordham Drive
Beaver Street
Yale Drive
Cornell Drive

Maple Street (completed finish coat)

We installed drainage on Allen Road, approximately 300' with one catch basin and continued drainage work on Jionzo Road, approximately 150' with one catch basin, on Park Lane Avenue, 200' one catch basin, Quinlan Street, 150' and Haven Street, 400'.

We removed ledge to widen a section of Central Street

We constructed a section of roadway at the Milford High School, installed drainage system, gravelled the road bed and put down Type I Bituminous Concrete. We excavated the bank on the westerly side on the road leading in from W.

Fountain Street to create a drainage swale to prevent icing in the winter.

Although our winter was a mild one compared to past years, we had three major snow storms, Jan. 16, 16" - Feb. 7, 13 1/2" - Feb. 12, 20". because of limited funds, we no longer pick up and remove snow as we did in the past. Our main concern now is keeping the roads clear and safe. We accomplish this with 9 of our own vehicles and 25 hired equipment.

From Dec. 12, 1982 to Feb. 25, 1983 we had nine sleet storms which required salting and sanding. This is accomplished with only our own equipment and man power.

Respectfully submitted,
Ronald F. Speroni
Highway Surveyor

REPORT OF THE HISTORICAL COMMISSION

To the Honorable Board of Selectmen and Citizens of Milford:

Activities for this year included on Open House at the Historical Commission with guest speaker Rep. Marie Parente along with the Commissioners exhibiting arts and crafts.

We had the cannon on the front lawn restored in preparation for celebrating the birthday of Memorial Hall in 1984 which will be 100 years old. Several slide shows were presented to schools and shut-ins. We have also completed about 200 of the 450 inventories needed to complete Milford for the Mass. Historical Commission. We applied for a grant from the Arts and Humanities for the restoration of Col. Robert Peard, but it was not approved. The Commission also took the position to preserve Memorial Hall and the Spruce St. School.

Treasures that were found in the Memorial hall attic was a story on the 4th Mozart Regiment from Milford in the Civil War and a book about the "Milford Emigration Company" founders and developers of Cherokee City, Iowa in 1856.

Respectfully submitted,
Robert M. Andreola, Chairman

REPORT OF THE INDUSTRIAL DEVELOPMENT COMMISSION

To the Honorable Board of Selectmen and Citizens of Milford:

The Commission has met twice a month. A concentrated effort was made in gathering and disseminating information on industry within the Town. The group is in the process of putting together a packet dealing with the desirability of locating in Milford. Studies have been made on various resources and we have looked into the availability of funding on a State level. The Commission has also gone to extreme lengths to contact present industry within the Town to insure that on going harmonious relationship exists.

It is the concern of the Commission that every effort is made to bring new industry to the Town, not only to broaden the Tax Base, but to meet the needs of the community in various other ways.

REPORT OF THE MILFORD TOWN LIBRARY

To the Honorable Board of Selectmen and Citizens of Milford:

After 34 years as Librarian of the Milford Town Library, Henry Pyne retired on May 1, 1983. While Librarian, Mr. Pyne greatly increased the collection of the library, and during the last several years of his tenure the library staff undertook to convert the non-fiction collection to the Dewey Decimal System. That conversion is progressing with a total of 24,528 books currently processed.

During the past year 1,284 books were purchased; 2,862 books were discarded. Circulation of books reached 107,253 and periodical circulation reached 5,169 for a total circulation of 112,422 books and periodicals. Library cards for 1091 news borrowers were registered during the year. Fines collected at the library and returned to the town total \$2,327.21.

The Board of Library Trustees hired Sondra H. Vandermark as the new Director of Library Services. Mrs. Vandermark has over ten years of professional library experience in a variety of libraries in towns with populations ranging from 17,000 to 83,000. She started her new position on May 2, 1983.

On Monday, June 13, 1983 at the Annual Town Meeting, the town meeting members voted 97 to 25 in favor of a new library building which will be constructed on Spruce Street adjacent to the existing Memorial Hall. The proposal for the new building, the culmination of long-term efforts by the Board of Library Trustees and the Library Building Committee, was made at Town Meeting by Paul Curran. The vote was made after an hour of impassioned discussion about the proposed library. As a result of the submission of a grant proposal for building funds authored by Mary Ann Desena, Sondra Vandermark, and Martin Goldstein, the Town of Milford was awarded tentative approval of \$400,000 toward the construction of its new building by the Massachusetts Board of Library Commissioners.

The library staff is grateful for the overwhelming vote in favor of the new building. The staff looks forward to serving the town in new and exciting ways.

REPORT OF THE PLANNING ASSISTANT

To the Honorable Board of Selectmen and Citizens of Milford:

The following report is submitted for the fiscal year ending June 30, 1983. This past year, this office successfully applied for and received over 1.4 million in grants to further revitalize the downtown, provide public services, preserve natural spaces and to further encourage commercial and industrial development in Milford. This 1.4 million in state and federal funds will leverage the total spending of over \$3.4 million towards the following projects:

-Milford's downtown revitalization activity will include the spending of \$490,000 of state funds to upgrade the downtown off-street parking areas, including the installation of new lights, parking meters, trees, granite curbing, signs and pedestrian walkways and the creation of at least 50 new spaces made possible by relining the parking lots. The Town of Milford will not be required to contribute any money towards this project.

-The Bear Hill industrial area is anticipating the final design and eventual construction of a \$450,000 industrial access road. The exact location of the proposed road is currently under review but we expect the construction of a new road and the improvement of existing access roads to come from this grant. It is further hoped that this \$450,000 will be matched by an additional \$450,000 from the federal Economic Development Administration (EDA) to further improve transportation access and leverage continued industrial development in the Bear Hill Area.

The Town Park will undergo much needed drainage improvements as well as new grading, loaming and seeding and a revitalized comfort

station as part of a \$100,000 project. The federal Land and Water Conservation Fund will match the Town's \$50,000 to start Phase I of improvements to this well utilized park.

-Milford will soon have a new library on Spruce Street assisted by a \$400,000 grant from the federal Library Services Construction Grant. This will effectively reduce Milford's costs from \$2,600,000 to \$2.2 million.

-Cedar Swamp Pond will be the subject of an intensive diagnostic/feasibility study as part of the Mass. Clean Lakes Program. The state has awarded the town \$28,000 as part of a \$40,000 study to determine how to best revitalize that pond.

I would like to express my appreciation to all Boards, Department Heads and Staff, and the citizens of Milford for their cooperation and support.

Respectfully submitted,
Martin Goldstein
Planning Assistant

REPORT OF THE PLANNING BOARD

To the Honorable Board of Selectmen and Citizens of Milford:

The Planning Board continues to devote extensive time and effort to significant and sensitive issues, which are crucial to the Town's development. Particular care has been expended to insure that future fiscal responsibility by the Town will not become necessary in matters relating to private developments.

Granite Park, the first industrial subdivision submitted to the Planning Board, was approved after many lengthy meetings. The Board cooperated fully with the developer and convened many special meetings to discuss and resolve numerous complicated matters.

The Maplewood Acres subdivision consisting of sixteen lots was processed and approved in this fiscal year.

The Planning Board is diligently and constantly pursuing the completion of existing subdivisions. Inspection fees of \$680.00 were collected and \$15,000 relating to the Orchard Park subdivision drainage was paid to the Town. In addition, \$150.00 was turned over to the Treasurer for permit fees.

Public hearings were conducted for 14 site plan review petitions and for six zoning amendment applications.

The perpetual inventory of subdivision lots approved and available for construction and of street frontage lots for construction was compiled as of February 21, 1983. On that date 548 lots were eligible to obtain building permits. In addition, a significant amount of residentially zoned land has the potential for subdivision.

The Board wishes to commend our consulting engineer, John P. Parmentier of Dunn Engineering Co., Inc., for his outstanding and prompt service. However, because of the extensive amount of ongoing industrial and residential development, it is imperative that the Town obtain the services of a full time highly qualified engineer immediately to address inspections and problems on a daily basis.

Your Planning Board will continue to work with dedication and diligence to assure the best interests of the Town and all its residents, now and for the future.

REPORT OF THE CAPITAL PLANNING COMMITTEE

To the Honorable Board of Selectmen and Citizens of Milford:

The Capital Planning Committee conducted numerous meetings discussing and evaluating Capital Expenditures for the '83-'84 fiscal year. The Committee prioritized the expenditures based on need and safety. It is important to note, that because of the 4% Cap and recently 2 1/2, many of the repairs and renovations were neglected in the past, and thus, causing many of the Towns' buildings to be in the condition in which they present themselves today.

The Committee voted favorably on the following Capital Projects which were also approved by the Finance Committee and Town Meeting:

1. A new Library to be constructed on School Street

2. Hot topping for Fino Field Annex to be completed over a two year period

3. Substantial repairs and reconstruction to be done to school buildings such as, Memorial School roof, the high school pool, and other major repairs at the high school and 100 new windows at Middle School-West

4. New Highway Barn

6. Town Park Renovation Project

7. Silver Hill Road Construction and Camp Street - funds available from Chapter 90 Funds

The Committee would like to thank all the Department Heads for their cooperation during the past year.

Hope illy, beginning this year, we can devise and implement a system which will be a responsible and fiscally sound method in dealing with Capital Expenditure Projects.

REPORT OF THE SCHOOL DEPARTMENT

To the Honorable Board of Selectmen and Citizens of Milford:

Nineteen eighty-three was a year of many changes for the Milford School Department. Heading the list was the establishment of objectives for all curriculum in grades K-12. This year-long process involved the entire professional staff and will culminate in the selection of new textbooks and materials, where appropriate.

A new administrative evaluation system, which emphasizes job targets that are related to updated job descriptions, was initiated in 1982-83 and will also be used in 1983-84.

Teachers will also be evaluated differently in 1983-84 as a result of the work started by the Committee on Teacher Evaluation. As of the writing of this report, a new evaluation form and procedure is undergoing final revisions in preparation for use in the fall of 1983.

A "Teacher of the Year" award was reinstated by the School Committee after a lapse of many years and went to Mrs. Rosalba Domskey for her outstanding contribution to the children of Milford.

After thirty-one years of dedicated service, Miss Barbara Seaver retired as Principal of the Memorial School. The entire community wishes her well in her retirement.

Test scores continue to place our students

above the 80th percentile in reading, and above the 70th percentile in math, science, and social studies in grades 2-8.

A new budget procedure was initiated which resulted in generous financial support for the schools by the members of the Town Meeting. Several additional appropriations of significant proportions were also granted for repairs to the Memorial School, Middle School and the High School and to bring the pool up to operational standards.

Finally, the energy management system, which the School Committee instituted sixteen months ago, dramatically reduced consumption and can only be termed a stunning success.

I wish to thank the hard-working members of the School Committee, the professional staff, parents and elected officials for their wonderful support during my first year as Superintendent.

Respectfully submitted,
Thomas M. Cimino
Superintendent of Schools

REPORT OF THE MILFORD COMMUNITY SCHOOL USE PROGRAM

To the Honorable Board of Selectmen and Citizens of Milford:

As we approach the tenth anniversary of the creation of the Community Program, I am proud to report that we have remained committed to providing the best educational, recreational, and cultural programs for our residents.

Our programs this past year were again well-attended and most successful judging by the response we received. We have expanded our recreational programs to the point that we now offer almost every type imaginable. Our Adult Education program has continued to prosper and the Theatre Guild and Community Chorus have continued to offer popular and professional performances.

Funds have been approved for the restoration of the pool at Milford High School and we look forward to again providing a comprehensive swim program very soon.

I would like to extend my appreciation to the School Committee, the Superintendent of Schools, the Milford School Department, and the

many other town boards and agencies for their continued support and cooperation.

I also extend my thanks to the eighteen member Community Use Committee for their continuous devotion and efforts in seeking to provide a comprehensive and enjoyable program for all our residents.

QUESTION 1

PROPOSED AMENDMENT TO THE CONSTITUTION

Do you approve of the adoption of an amendment to the constitution summarized below, *which was approved by the General Court in joint sessions of the House of Representatives and the Senate on July 2, 1980 by a vote of 171-4, and on June 21, 1982 by a vote of 144-44?*

SUMMARY

The proposed constitutional amendment would remove the present constitutional prohibition against the use of public funds to aid or maintain private or secondary schools.

It would permit the Commonwealth, cities and towns to make public funds available to pupils attending private primary and secondary schools in the form of either aid, materials or services subject, however, to three specific limitations. First, the private school could not be one that discriminates on the basis of race or color in its admission requirements. Second, the grant of aid must be consistent with the First Amendment to the United States Constitution which guarantees the free exercise of religion and prohibits the establishment of religion. Third, individual pupils would have to request the aid, materials or services. In addition to these three specific limitations, the amendment would authorize the legislature to enact other laws imposing conditions or restrictions on the grant of public aid, materials or services.

The proposal would also change the state constitution to allow public money to be spent to aid infirmaries, hospitals, charitable or religious undertakings if they are either publicly owned or under the control of public officials. The state constitution now prohibits such spending unless these institutions are both publicly owned and under the control of public officials.

QUESTION 2

PROPOSED AMENDMENT TO THE CONSTITUTION

Do you approve of the adoption of an amendment to the constitution summarized below, *which was approved by the General Court in joint sessions of the House of Representatives and the Senate on September 19, 1980 by a vote of 123-63, and on June 21, 1982 by a vote of 125-62?*

SUMMARY

The proposed constitutional amendment would allow the legislature to enact laws authorizing the state courts to impose the death penalty on the conviction of crimes to be specified by law. The proposed amendment would provide that no provision of the state constitution may in the future be construed as prohibiting the imposition of the punishment of death.

QUESTION 3

LAW PROPOSED BY INITIATIVE PETITION

Do you approve of a law summarized below, *on which no vote was taken by the House of Representatives or the Senate before July 7, 1982?*

Summary

The proposed law would require that before the construction or operation of any new nuclear power plant or low-level radioactive waste storage or disposal facility in the Commonwealth, the legislature must make certain findings and a majority of voters must approve the new facility at a statewide election.

Before the question of building a new nuclear power plant could be submitted to the voters, the legislature would have to find that (1) the proposed facility is the best means for meeting energy needs based on certain economic, safety, environmental and social considerations; (2) a federally-licensed facility exists for the disposal of the high-level radioactive waste that would be generated; (3) an approved emergency preparedness plan has been developed; (4) radioactive pollution standards have been promulgated; and (5) a demonstrated, federally-approved technology exists for decommissioning the proposed power plant.

Before the question of building and operating a low-level radioactive waste storage or disposal facility or of entering into an agreement with another state to build and operate such a facility in Massachusetts could be submitted to the voters, the legislature would have to find that the technology and site designated for the proposed facility are the best available based on certain economic, safety, environmental and social considerations. The legislature would also have to find that the obligations imposed on Massachusetts by any interstate agreement were no greater than those imposed on any other state.

The proposal would not apply to a facility which had obtained all necessary government approvals before August 5, 1981, nor to any facility for disposal or storage of radioactive wastes from medical or bio-research applications in Massachusetts.

QUESTION 4

REFERENDUM ON AN EXISTING LAW

Do you approve of a law summarized below, *which was approved by the House of Representatives on November 10, 1981 by a vote of 108-49, and by the Senate on November 16, 1981 by a vote of 29-10?*

SUMMARY

The law requires that a refundable deposit be paid for certain beverage containers sold in Massachusetts.

Beverage containers of less than 32 ounces must have a refund value of at least five cents and larger containers a refund value of at least ten cents. This requirement applies to non-biodegradable containers of carbonated soft drinks, mineral water, beer and other malt beverages, but not to containers of other alcoholic beverages, dairy products, natural fruit juices or wine. All beverage containers subject to deposit must clearly indicate the refund value on the container.

The deposit is paid by the consumer upon purchase and must be refunded when the consumer returns the empty container to a proper dealer or redemption center, so long as the container does not contain any material different from its normal contents. Dealers and distributors are also subject to the same deposit and refund on the beverage containers they handle, and are also entitled to a handling fee of at least one cent per container.

No containers can be sold in the state if they are joined together by plastic rings or any other device that cannot be broken down by light or bacteria.

The law provides a bottler a reduction in corporate excise tax of one-tenth of one cent for each reusable beverage container which the bottler sells in the first three months of 1983. The law provides for additional unemployment benefits and, if the Legislature appropriates the funds, a job retraining program for employees of bottlers, canners, or manufacturers of beverage containers who lose their jobs as a result of this law.

The law takes effect on January 17, 1983.

QUESTION 5

Shall the Secretary of the Commonwealth of Massachusetts inform the President and the Congress of the United States that it is the desire of the people of Massachusetts to have the government of the United States work vigorously to negotiate a mutual nuclear weapons moratorium and reduction, with appropriate verification, with the Soviet Union and other nations?

The polls will be open from 8 a.m. to 8 p.m.

And you are hereby directed to serve this warrant by publishing at least seven days before said meeting an attested copy of this warrant in the Milford Daily News, a newspaper published and having a general circulation in the Town of Milford, and by posting at least seven days before said meeting attested copies of this warrant in five or more public places located in said Milford.

Hereof fail not and make return of this warrant with your doings thereon to the Clerk of said Town at the time and place of said meeting.

Given under our hands this 12th day of October A.D., 1982.

Harris M. Tredeau
